

under the guidance of

The Indian Council of Medical Research (ICMR) is pleased to announce its Medical Technology Showcasing and Technology Transfer Facilitation conclave entitled “**Medical Innovations Patent Mitra Innovators-to-Industry Connect (I2I Connect)**” – a landmark platform designed to accelerate the journey from biomedical innovation to real-world impact.

Medical Innovations - Patent Mitra is an initiative of the Indian Council of Medical Research (ICMR) - Innovation and Translational Research Unit (ITR). It aims to provide end-to-end support to ICMR Intramural Institutes, Extramural Institutes, Medical colleges/institute, Start-ups and any institute-led biomedical innovator by facilitating patenting and technology transfer, thereby strengthening the country’s biomedical innovation ecosystem.

DATE
23 April 2026

VENUE
Bharat Mandapam, New Delhi

WHY THIS EVENT MATTERS

01 Medical Technology Showcase

100 stalls displaying high-potential biomedical innovations

02 Innovators-Industry Bridge

Structured interface connecting innovators, biorepositories & industry for technology matchmaking

03 Technology Transfer Hub

Facilitating patent licensing, technology licensing

04 Exclusive CEO Round Table

Exclusive CEO-level dialogue fostering strategic partnerships between innovators & industry

05 Material Transfer Facilitation

Enabling seamless access to biomaterials through Material Transfer Agreement (MTA)

WHAT WE OFFER

- Patents available for licensing
- Technologies available for licensing
- Biomaterials available for licensing
- Technologies with active EOI (expression of interest)
- Material transfer (viral, bacterial isolates etc)

PARTICIPANTS

ICMR Institutes

Extramural Grantees

Start-ups

Medical Colleges/Institutes

Industry Partners

Bio-innovators
